

Discrepancies in Membership roles.

There are a few fields in HamClubOnline regarding membership and voting privileges.

The first is *roster status* (Roster Status) We currently have values of:

- 'Active',
- 'Inactive', and
- 'Deceased(SK)'.

the next is *mem_typ* (Membership Type) Our membership types are currently:

- Full Member,
- Associate Member,
- Family Member

The last is *club_rank* (The member's level in HARC). Currently we have:

- Voting Member
- Non-Voting Member
- Officer

Those that are allowed to vote have the following characteristics:

- Roster Status is *Active*
- Membership Type is *Full Member*, *Officer* or *Family Member* who is a Full Member, by virtue of having a *callsign*,
- Club rank is *Voting Member* although this could be derived from Membership Type.

At this time we make no distinction between Family Members who have a call sign (and are, therefor a Full Member) and those that do not (and are, therefore, Associate Members). They are listed only as "Family Member".

Recommendation

There is a little bit of cleanup work that should be performed to keep the HamClubOnline database as pristine as possible; we are treating HCOL as the *System of Record* or the *Single Source of Truth*.

Included here will be a few tables showing different discrepancies.

Members with no call signs who are Voting Members.

Member_Number	Roster_Status	Member_Type	First_Name	Last_Name	Call	club_rank
35621	Active	Full Member	Tod	Cox	(none)	Voting Member
32090	Active	Family Member	James	Taylor	(none)	Voting Member
31930	Active	Family Member	Deanne	Widmark	(none)	Voting Member

No call sign implies no license, and only fully licensed amateurs may be full members. And only Full Members may be Voting Members. Change *Club Rank* to "Non-Voting".

Silent Keys who are still listed as Voting Members

Member_Number	Roster_Status	Member_Type	First_Name	Last_Name	Call	club_rank
---------------	---------------	-------------	------------	-----------	------	-----------

26093	Deceased (SK)	""	Anthony	Dinkel	(none)	Voting Member
24405	Deceased (SK)	""	Earl	Lizardi	(none)	Voting Member
24388	Deceased (SK)	""	Douglas	Smith	(none)	Voting Member

Perhaps we should consider adding a Club Rank of '*Silent Key*' or '*Deceased*'. In any event, we should, at the minimum, make them '*Non-Voting Members*'.

Also, sadly, we have to change Robert (Bob) Dorsey's '*Roster Status*' to '*Deceased(SK)*'

Split the "Family Member" designation into two different designations.

Finally, we may want to give consideration to splitting the '*Family Member*' into two parts; '*Family Member - Full Member*' and '*Family Member - Associate Member*'. There would be no change to the dues structure, but only the '*Family Member - Full Member*' is allowed to cast a ballot. There may be better titles for these Family Memberships.

Of course, whether a *Family Member* can cast a ballot can be derived from: If the member is a "Family Member" and they have a call sign then the member is a "Full Member" and are allowed to vote. Otherwise, if the member is a "Family Member" with no call sign then the member is an "Associate Member" and is not allowed to vote. Even though the results can be derived, it would be better to explicitly list the type of "Family Member" in the HamClubOnline data to avoid confusion.
